PROFILE

Motivated Computer Engineering undergraduate from Nepal with hands-on experience in web development, Python programming, and database-driven applications. Interested in building practical software products and currently seeking an internship or entry-level opportunity where I can contribute to real-world development while strengthening my full-stack engineering skills.

EDUCATION

Bachelor of Engineering in Computer Engineering

2023 – Present

Tribhuvan University affiliated college, Kathmandu, Nepal
Expected Graduation: 2027

+2 Science

2021 – 2023

Higher Secondary Education Board / NEB, Nepal

TECHNICAL SKILLS

Languages	Python, JavaScript, C/C++, HTML, CSS
Frontend	React.js, Vite, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Database	MongoDB, Mongoose, basic SQL
Tools	Git, GitHub, VS Code, Jupyter Notebook, Postman
Data / ML	NumPy, Pandas, Matplotlib, scikit-learn, basic NLP

PROJECTS

Placement Preparation System

React.js, Django, Python, MongoDB | Academic Project

- Developed a web-based platform to help students prepare for placement examinations.
- Implemented modules for resume analysis, aptitude practice, and technical assessment.
- Designed REST-based communication between frontend and backend and organized application data using MongoDB.

News Article Summarizer & Sentiment Analyzer

Python, Hugging Face Transformers, NLP, React.js

- Built a prototype that accepts article text and generates a concise summary with sentiment analysis.
- Integrated pretrained transformer models and implemented chunking for handling longer articles.
- Created a simple web interface to present the generated summary and sentiment results.

Personal Portfolio Website

React.js, Vite, Tailwind CSS

- Created a responsive portfolio website showcasing education, projects, skills, and contact information.
- Used reusable React components and responsive layouts for desktop and mobile screens.

EXPERIENCE / TRAINING

Web Development Trainee

Digital Pathshala, Nepal | 2025 – Present

- Practiced modern frontend development using React.js and component-based design.
- Worked with JavaScript, APIs, Git/GitHub, and basic full-stack application architecture.
- Built small practical projects to strengthen problem-solving and development skills.

CERTIFICATIONS & ACTIVITIES

- Completed hands-on web development training focused on React.js and modern JavaScript.
- Participated in academic programming, simulation, and data science projects.
- Regularly practice Python, DSA, Git/GitHub, and full-stack web development.

ADDITIONAL INFORMATION

Languages: Nepali, English, Hindi

Location: Kathmandu, Nepal

Availability: Open to internships and entry-level software development opportunities
